Minutes of last AGM

There were no matters arising, the minutes were adopted, and signed.

Chairman's Report

Having been chair for the last 3 years, MC felt that it was time for new leadership and was now standing down. Edgware had been a trailblazer in London in partnership with such a strong and effective police team, and was also proud of the major impact of Nutmeg on the youth community.

The model of the EWP works very well, adopting also a proactive role where lobbying and direct action can assist the SNT to achieve common goals. There are 'constants' in Edgware with many permanent fixtures of concern.

The Hub team has been a welcome addition, and their presence has further extended the security of the area. Much praise is due to them.

The EWP Exec team has provided enormous support. MC offered his personal thanks to Shirley Kosky for all her efforts. Shirley has been a secret weapon, a warm friendly missile to all who opposed her efforts on behalf of the team. He gave his thanks to his deputy Lawrence Cohen, who works so hard behind the scenes with the police and through the CST. MC also offered his thanks to Adrian Fisher who had supported him so well. Overall Dan Reid and his team have been the power behind the success of the SNT due to his wonderful leadership.. Dan's calm and model approach has been an inspiration and very sincere thanks are due for all his efforts.

The year ahead will bring great change to the SNT teams but it is to be hoped that Dan Reid will be the pivot for the future.

Secretary's Report

Shirley Kosky expressed her thanks and appreciation to the Chair for his kind remarks. The last 3 years have passed very quickly.
